

PennDOT e-Notification

Bureau of Business Solutions and Services
Highway/Engineering Applications Division

General

No. 013
August 17, 2015

Decommissioning of HGEO, GRPRO and CLLMR

Due to a decline in use and the availability of commercial software, the Department's Highway Geometry applications, Horizontal Geometry (HGEO) and Grade Profile (GRPRO), will no longer be licensed after August 31, 2015.

Additionally, due to low demand and limited functionality, the Department's Comparison of Live Load Moments and Reactions (CLLMR) will also no longer be licensed after August 31, 2015.

Limited user support (i.e., general use, program functionality, input preparation, output interpretation questions) for current licensees will continue as long as needed, but no future bug fixes or enhancements are planned.

Please direct any questions concerning the above to:

Robert F. Yashinsky, P.E.
